Cheap Gadgets change the world as Chips

By Reuben Goss
All around New Zealand young boys have been collecting Blue Bird Rugby Cards, Out of Blue Bird Chip packets. There are gold cards in specially marked packs. People can collect rugby cards until super 14 ends. There are 50 in the whole card set plus 50 gold's. There is a gold card of every normal coloured card. The most common card is Daniel Carter. You can purchase a presentation

folder from BP station if you buy two packets of Blue Bird Chips to keep them in good condition. There are 5 different teams you can collect, Crusaders, Hurricanes, Highlanders and the Blues. The cards stated to come into chip packets when super 14 started. Every Blue Bird Chip packet has 2 Rugby Cards from the mega party packs. Rugby are a hit with the children all across new Zealand.

B.C. moves on wheels

Bethlehem College Primary Student riding his skate board. Picture / Isaac Martin

By Jason smith
On30th of May 2008 Bethlehem College had a wheels day. The school was raising money for world vision. Bethlehem college raised over\$500 last year this year they are trying to beat that. Most kids liked the idea of giving a gold coin donation children brought all kinds of toys for wheels day like bikes, skate boards scooters).Boys enjoyed skate boards was the

best because they could do jumps and tricks. Some students brought Unicycles and even blow carts. Some students were disappointed that you could only go Once. Shannon walker caption of world vision said" it was quite hard getting every Body together. She explained how it was good that no one got hurt. Next year it would be great to see some teachers having a go.

Cell Phones Curse or Not

85% of people interviewed think Cell phones are a blessing because you can keep in contact with all the people that they know

15% of people think Cell phones are a curse because it can cost lots of money to run

Good things about Cell phones

- Communicating with people
- Internet access
- Taking picture

Bad things about Cell phones

- Cost
- Txt Bullying

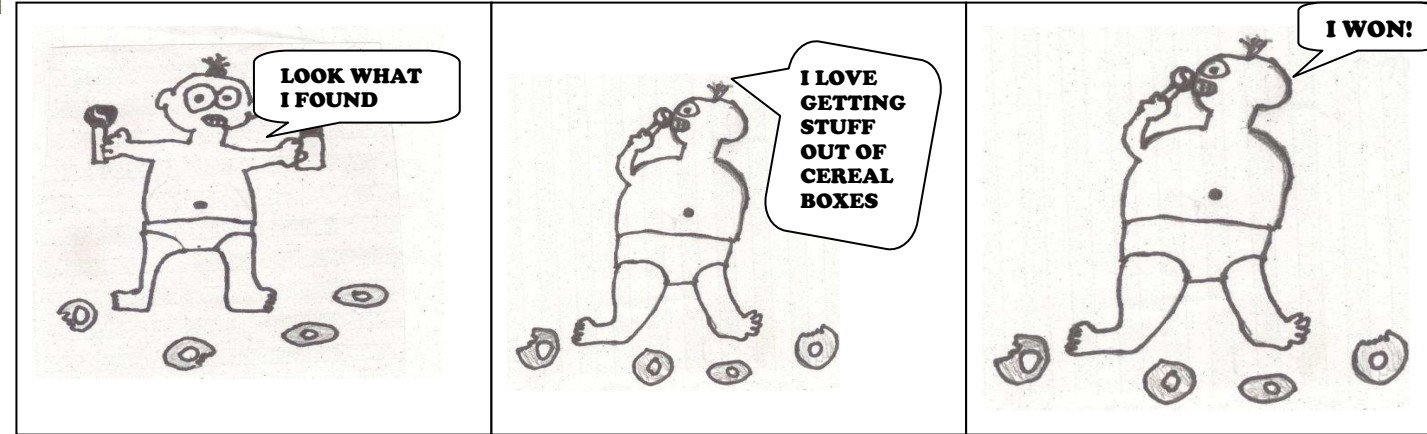

"Electronic gadgets have made this world more fun"

By Isaac martin **Editorial**
Electrical gadgets, are they a blessing or a curse? Well I'm about to find out. Electronic Gadgets have been around since Tomas Edison invented the light bulb. There are heaps of different electronic Gadgets like cell phones, I pod's, play station 2's, computers, TV's, you name it their count less. I believe electronic Gadgets are cool especially play station 2's and I pods. After interviewing some people it seems that there is mixed opinions as to whether electronic Gad gets bless us or curse us , Debbie Martin explained that " she uses the computer, cell phone, TV, iron and vacuum cleaner everyday." She though that none electronic Gadgets curse her, the radio blesses her, and that it would be harder to live and less convenient if we didn't have electronic Gadgets , It wouldn't be as easy or quickly if you didn't have Electronic Gadgets for our jobs , that her cell phone is her best

electrical gadget best, Electronic Gadgets have a huge effect on the world if you think electrical gadgets effect the world, many believe that they could not live with out their cell phones. I use my cell phone the most. Debbie martin shared. Play station 2's, cell phones and iPods are popular electronic Gadgets, how ever there are some **GOOD** and **BAD** things about these. The first **GOOD** thing good thing about cell phones is that you can text someone like your family, friends and other people. Another thing is that you can choose the sound of your ringing and texting, so when someone rings you can hear the sound that you choose. Another blessing with cell phones is that you can text someone a picture and then save it in for remembrance later. There are so much more **GOOD** things about cell phones, how ever there are also some **BAD** things. **BAD** thing is they always go flat when you use them to much, and then you have to charge them and that can take ages. Another **BAD** thing about

cell phones is it cost lots of money. Some people think another **BAD** thing is if you like playing games on cell phones, they only come with two games and if you want more games you have to buy them. Play station 2 is another interesting Gadget, however it is such a curse if somehow the disc gets scratched, and it some times jumps. It is annoying when a play station disc cannot be read by the play station. Apart from some difficulties play station 2 is a very fun and entertaining gadget. I love playing a game and getting **GOOD** at it at the play station game, you feel like the person on the TV screen. Play station 2 is way better then a computer. It great that you can buy level games, and racing games. Nathan Martin explained how he uses the TV and computer every day. He thinks there are no curses except the cost of purchasing them or the running cost. Cell phone, computers, alarm clocks and mp3 player are all electronic gadgets that blesses us with out electronic

adgets. Life would be slower and boring it would be, it would be difficult to do many jobs with out electronic gadgets. Computer is his most favrioute electronic gadget. It would be harder if we didn't have electronic gadgets. Nathan Martin shared that he uses his computer the most. He thinks that electronic gadgets do affect the world. he also sheared that none electronic gadgets he could live with out excepted the alarm clock helps to be at work on time. iPod is another interesting thing. First **GOOD** thing is you can listen to music that you down load on to your I pod. Another **GOOD** thing is you can play games and quizzes. Last thing is you can time people and see how long they take. Apart from those things there are some **BAD** things about an I pod is it comes with no music at all. Another thing is people steeling music of the internet and then downloading it on to there I pod. On my opinion electrical gadgets are one of the coolest things in the world. Some of them are so much fun.

Soccer hits Bethlehem College

By Reuben Goss
On a winter Saturday morning soccer hits the planet. Mothers, Fathers Grandparents and more gather around the soccer field. What ever weather the kids get out there best. It feels great to win a game and get player of the day. The All Whites and Mc Donald's support kid's soccer. Soccer is a very popular sport and very good for fitness. There are about 40 kids playing soccer for Bethlehem Collage and about 10 in each soccer team. For most Goal Keepers with a good and skilled team it must be pretty boring. If you lose a game its okay at least you tried your best. The Western Bay Reps Soccer Coach says "that it's a bit hard to choose for the team". There are 10 people in BC Barracudas Premier team for grade 9. There are lots of different soccer goals at BC for grade 9, 10, 11 and more. Some of the kids get out for morning tea and play soccer, rugby cricket and other things. Most Wednesdays at 2:00pm

Bethlehem Collage Primary kids get into soccer and Net Ball practice. If they don't have a practice they play a sport with teachers. Some countries are mad about soccer. Mark Smith the coach of Bethlehem collage grade 9 says that most of the time he feels helpful to the team. He likes to watch his team most of the time but some times it's disappointing when they don't listen to instructions. Mark likes to watch Chelsea because it is his favourite soccer team. Mark likes to coach a team because it is very rewarding. The one bad thing is that when he gets time off work to coach his team he has to make up for it after. For the BC Barracudas the goal keeper is Reuben Goss the defenders are Connor McCarthy, George Role, and Harrison Still and sometimes Tice Robison. The strikes are Janvhi Clark and Campbell Knowles, Tice, Isaac martin and Josiah Verissimo.
