KEYNOTE PRESENTERS:

Tony Ryan

HOW GOOD COULD YOU BE?

An entertaining (!!!) perspective on exemplary teaching practice

How inspired do you feel about your professional practice? Do you wake up in the morning and bounce out of bed, ready to make the world an even better place? Or do you sometimes climb out just a little more slowly??

Using the Key Competencies as a constructive basis, this provocative keynote will explore the personal and professional mindsets that are consistently adopted by many great teachers.

A former teacher, Tony Ryan is an educational consultant and writer, and offers professional support to school organisations throughout the world on issues such as change leadership, lifelong learning and quality classroom practice. He has presented numerous keynotes and workshops at state, national and world conferences in the past 10 years.

Sean Lyons

Netsafe

Sean Lyons is the Development Manager at NetSafe and has been involved in ICT based professional development & on-line learning projects since 2000.

He will be talking about the current cyber landscape for young people, looking at where they are online and what are some of the challenges they face.
